

City of Marina Proposed New Fee

The City recently identified a need to offer a tiered approach to recovering costs associated with adding or re-addressing buildings. The Building Address/Re-Address Processing Fee that was included in the City's most recent fee study was determined to be \$1,065 per building. This amount was amended on August 6, 2025, to be \$1,094 to reflect changes in the Consumer Pricing Index to account for employee cost of living increases and inflation.

To recover costs for minor address/re-address updates, such as those associated with accessory dwelling units, the City is proposing the following new fee to reflect a more streamlined process.

Proposed New Fee: New Address – Minor
Amount: \$289.00 per building
